MEMORANDUM FOR: Deputy Director of Central Intelligence

THROUGH : Executive Director-Comptroller

SUBJECT : Development of an Advanced Rear-Projection Viewer for Photo Interpretation

1. I have carefully reviewed that attached proposal by NPIC to develop a greatly improved viewer. Such a viewer would facilitate and expedite the scanning of large masses of film. Faced with increasing workloads on the one hand and ceiling limitations on the other, rapid development of faster screening methods has become mandatory.

2. I therefore recommend that you approve the development of this viewer at a cost of [redacted] in FY 1967 funds. 25X

[redacted] 25X

EDWARD W. PROCTOR
Assistant Deputy Director for Intelligence
